

Navigating the  
*Silver Tsunami*  
Growing, Loving, and  
Caring in the Midst of an  
Aging Population

Annual Fall Conference  
October 17 - 19, 2019  
Geneva Park, Orillia, ON

Intensive Training  
Day with  
Dr. Darcy Harris

We are so glad we can learn with our long-time colleague, Dr. Darcy Harris- Darcy is planning on helping us to best understand the work involved in being part of caregiving in the SILVER TSUNAMI.

At the end of the day, participants will be able to:

1. Describe the changing context of aging in Canada and its impact on the health care system
2. Articulate the concerns and losses that occur with aging, as well as how our seniors can navigate the health care system
3. Define the challenges and benefits of parenting our parents, including relationships, responsibilities, caregiver burden and financial issues
4. Define the roles and responsibilities of professional caregivers who are involved with elder care.

In each segment, there will be various case study presentations, interactive exercises and discussions, small group work, use of video clips, and reflective writing.

Don't miss this amazing opportunity to learn with Darcy and other networking colleagues  
on Friday, October 18<sup>th</sup>!

Registration can be done online or via snail mail.
